ORDINANCE NUMBER 59, 2016

**Amending Article III, Section 1(D)(14), of the Administrative Code Of Erie County,
Previously Amended By Ordinance Number 63, 2015**

WHEREAS, the Administrative Code of Erie County was previously amended by Ordinance Number 63, 2015.

THEREFORE, BE IT ENACTED by the County Council of the County of Erie, pursuant to Article II, Sections 3B(1), 3B(2)(f) and Article XI, Section 12 of the Erie County Home Rule Charter that the amendment regarding the following addition to Article III, Section 1(D)(14) in the Administrative Code of Erie County is hereby approved as outlined:

"c. Any proposed contracts using state and federal funds, regardless of the amount, involving the following functions of the Department of Human Services: coordination of programs and services for the aging, prevention and treatment of drug and alcohol abuse, Mental Health/Intellectual Disabilities/HealthChoices Programs and services, Children & Youth Services, and Adult and Residential Services."

BE IT FURTHER ENACTED that the Council Clerk circulates the amended language to all departments for insertion into their copy of the Administrative Code, including references to this ordinance and the date of its passage, and arranges for posting of the updated Code on the Erie County website.

This ordinance shall be effective immediately upon adoption.

Re: Proposed Amendment to the Administrative Code – Department of Human Services Contracts

Attached you will find the proposed amendment that adds language specific to the exemption of the Department of Human Services contracts from the formalized bid process.

Currently, the Department of Human Services (DHS) contracts with 180+ providers annually. These providers are involved in 285+ contracts per year with almost all being above the \$25,000 threshold.

A review of the current language indicates we are operating within the parameters of our state and federal funding regulations, but outside of the current language of the Administrative Code. We believe that the addition would provide an accurate depiction of our current Erie County practice to the Administrative code.

Our request for this language modification is consistent with that of other Pennsylvania County Human Services Departments.

Proposed Amendment to Erie County Administrative Code

Article III - PURCHASING AND SALE PROCEDURES

Section 1 - Purchasing Code

D. Formal Competitive Bid Procedure, Number 14

Current Administrative Code:

14. Contracts for the purchase or rental of materials, supplies, furnishings, equipment, or other personal property, insurance coverage, and services by independent contractors involving an expenditure in excess of Twenty-Five Thousand Dollars (\$25,000) for which the foregoing formal competitive bid procedure is not required are as follows:

(a) Professional services are defined to pertain only to the medical or legal profession and certified public accountants. All others must comply with the bidding procedures as set forth in the Administrative Code of the County of Erie.

(b) Those involving emergency purchases which are subject to the emergency competitive bid procedure set forth in Section 5 below, upon a showing that such purchases are required for the health, safety, and welfare of the people or for the protection of property, and that there is a present, immediate, and existing emergency which reasonably could not be foreseen.

Proposed Additional Language to include:

(c) Any proposed contracts using state and federal funds, regardless of the amount, involving the following functions of the Department of Human Services: coordination of programs and services for the aging, prevention and treatment of drug and alcohol abuse, Mental Health/Intellectual Disabilities/Health Choices programs and services, Children and Youth Services and Adult and Residential Services.

ORDINANCE NUMBER , 2016

**2016 Capital Project Fund Revised Expenditures Of \$211,723 For
Veteran's Affairs And HRC Relocation Projects**

BE IT ENACTED by the County Council of the County of Erie pursuant to Article II, Sections 3B(1), and 3B(2)(f) of the Erie County Home Rule Charter, that Revised Expenditures of \$211,723 in the 2016 Capital Project Fund, for relocation of the Veteran's Affairs Office and the Human Relations Commission Office, are hereby approved as outlined on the attached Exhibit A.

This ordinance shall be effective immediately upon adoption.

RESOLUTION NUMBER , 2016

**Approving an Amendment to the Official Erie County Municipal
Solid Waste Management Plan**

WHEREAS, in accordance with the requirements of the Solid Waste Management Act of 1980 (Act 97) and the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988 (Act 101), Erie County is periodically required to submit to the Pennsylvania Department of Environmental protection an officially adopted municipal waste management plan for municipal waste generated with its boundaries; and

WHEREAS, the revised 2015 Erie County Act 101 Municipal Solid Waste Management Plan was approved through Resolution Number 2, 2016, on the 26th of January, 2016; and

WHEREAS, the Erie County Department of Planning subsequently received a petition from the Chautauqua County Landfill to be added to the plan, after which a 30 day public comment period was convened and closed without objection.

NOW THEREFORE, BE IT RESOLVED by the County Council of the County of Erie, that the addition of the Chautauqua County Landfill and changes in Chapter 6, "Future Disposal Capacity Commitments" are hereby approved as outlined in the attached Exhibit A; the Official Erie County Municipal Solid Waste Management Plan.

On the motion of _____, seconded by _____, this resolution was passed on this _____ day of _____, 2016 by a vote of ____ to ____.

Memorandum

To: County Council

From: Brittany Prischak, Erie County Sustainability Coordinator

Date: August 26, 2016

Re: Erie County Municipal Solid Waste Plan – minor update to plan

The Erie County Municipal Solid Waste (MSW) Plan was adopted by County Council in January 2016. In February 2016, the Erie County Department of Planning received a petition from Chautauqua County Landfill to be added to the MSW Plan as an approved landfill to receive waste from Erie County. After a review process by Nestor Resources, Inc., the consultant on our MSW Plan, Chautauqua County Landfill was approved. We opened a 30-day public comment period with our municipalities and received no concerns.

Nestor Resources, Inc., updated the Erie County MSW Plan to reflect the addition of the Chautauqua County Landfill. These minor changes are found in Chapter 6 "Future Disposal Capacity Commitments" of the Plan, primarily in Table 6-1 through 6-5, which show all of the proposed landfill facilities and their responses to requirements or regulations in order to accept municipal waste from Erie County. Chautauqua County Landfill's information has simply been added to these tables.

Please see the attached Exhibits, pages 110-116 of the MSW Plan, which have the noted changes. We are asking County Council to approve these changes to the Erie County MSW Plan so we may submit the final version of the plan to the PA DEP for review.

For any questions regarding these changes, please contact Brittany Prischak, Erie County Sustainability Coordinator, 814-451-7326 or bprischak@eriecountypa.gov.

RESOLUTION NUMBER 2, 2016

**Adoption of 2015 Revised Erie County Act 101 Municipal
Solid Waste Management Plan**

WHEREAS, in accordance with the requirements of the Solid Waste Management Act of 1980 (Act 97) and the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988 (Act 101), Erie County is periodically required to submit to the Pennsylvania Department of Environmental protection an officially adopted municipal waste management plan for municipal waste generated within its boundaries; and

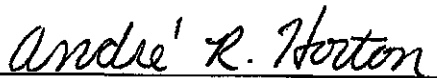

WHEREAS, this revised Municipal Solid Waste Management Plan for the County of Erie has been financed by a grant from the Pennsylvania Department of Environmental Protection and local funds and services provided by the Erie County Recycling Program; and

WHEREAS, upon the recommendations of the Erie County Solid Waste Advisory Committee, the County of Erie County Council have reviewed and approved the recommendations of this proposed plan to insure the availability of adequate permitted processing and disposal capacity for the municipal waste generated within the County of Erie .

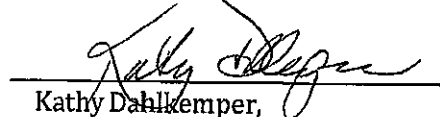

NOW THEREFORE, BE IT RESOLVED by the County Council of the County of Erie, that Erie County hereby adopts the revised 2015 Erie County Municipal Solid Waste Management Plan attached hereto as Exhibit A as the official Erie County Municipal Solid Waste Management Plan.

On the motion of Mr. Breneman, seconded by Dr. Foust, this resolution was passed on this 26th day of January, 2016 by a vote of 7 to 0.

INTRODUCTION

Erie County adopted its first Municipal Solid Waste Management Plan under the provisions of the Municipal Waste Planning, Recycling and Waste Reduction Act of 1988 (Act 101) in 1990. It was subsequently updated in 1995 and 2005. This project represents the third update and revision to the original Plan.

This update evaluates the effectiveness of the existing Plan and reviews Erie County's ability to implement the tenets upon which it was originally developed. Based on those findings, certain components have been revised and programs have been altered to complement the current demographics, economy, and resources of Erie County. The Plan outlines the step-wise process from fact finding through analyses to final recommendations. To facilitate implementation of the Plan a table of recommendations and a timeline for expected implementation of each facet is outlined. Some actions are suggested for immediate needs, while others, which require additional efforts and resources will be introduced in transitional phases, and as funds permit.

COUNTY AND MUNICIPAL RESPONSIBILITIES

Prior to Act 101, planning for municipal solid waste management in Pennsylvania had occurred in some fashion for over 40 years. The planning was primarily a function of municipal level government. Some plans were initiated at the county level but only to coordinate the waste management responsibilities of the municipalities. With no statutory powers of enforcement, counties had minimal authority to affect change. Act 101 was the first piece of legislation to transfer the powers and responsibilities for waste management planning to the counties. It also offered counties the ability to delegate those powers and responsibilities to a specific agent, department, or agency. In Erie County, delegation of those duties was assigned to the Department of Planning.

The focus of county level planning was to assure that enough disposal capacity existed to handle the municipal waste generated locally, and allowed counties to control the flow of waste for disposal to designated facilities. It should be noted that certain responsibilities for storage, collection, transportation, and recycling were still largely reserved for the municipalities, if not by Act 101, particularly under PA Municipal Code. Therefore, developing countywide programs and policies to ensure universal access to waste collection remains challenging. Success depends largely on the willingness and cooperation of local municipal officials, and acceptance of the citizens of Erie County.

BENEFITS OF MUNICIPAL WASTE PLANNING

For nearly 25 years, the County has implemented the Plan and its updates with continued success. A number of tangible and substantial accomplishments can be attributed to those efforts. By securing disposal capacity in professionally operated state of the art landfills, the County ensured its citizens fair and equitable disposal costs and

increased protection from future potential environmental liabilities. The combination of mandated and voluntary recycling initiatives conserved valuable natural resources. Active campaigns to collect hard to manage materials has reduced the occurrence of illegal dumping in the County, thus enhancing public health and safety.

ESSENTIAL COMPONENTS OF THE PLAN

The Erie County Municipal Solid Waste Management Plan is the culmination of a series of activities. The planning process is designed to examine existing facts, statistics, and circumstances to project future needs and to determine how to accommodate for them. In solid waste planning these activities traditionally include these exercises:

Waste Characterization

One of the first steps in planning for municipal solid waste management is to identify and understand the sources, types, and quantities of waste that are generated. Since waste generation is typically measured in terms which relate to population and other socio-economic factors, examining trends in local demographics is important. National and regional studies and trends are used to analyze the local reported data and to establish benchmarks.

Available Services and Utilization

Examining municipal solid waste collection programs for residential, commercial, institutional, and government entities can reveal where there is adequate access to services as well as where there are gaps and inadequacies of services. Identifying service providers for collection, processing, and disposal along with the utilization of those services by local citizens is a good step in revealing where poor waste management habits may exist. It is also valuable to explore services that could be made available based on new technologies or new operations.

Potential for Recovery and Diversion

An intense review of reported recycling and waste diversion activities serves as a foundation to determine future projected recovery of materials. It also establishes the potential for future business development opportunities. By creating a baseline, performance objectives and metrics can be developed.

Implementation Strategy

The final component brings together the findings and recommendations of the planning process into an action plan. This is where the resources, tools, and timeframe to achieve the goals of a municipal waste management plan are clearly defined.

All of these elements are organized and arranged in a structure called the implementation plan. It serves as the final documentation of the process and as a guide for future requirements. The outline of the Plan revision is shown in the following figure.

Plan Contents and Organization

Chapter 1 Description of the Waste

- general demographic data
- current waste stream characteristics
- reported and estimated waste quantities
- material types and sources

Chapter 2 Description of Facilities

- collection and disposal practices
- disposal facilities utilized
- local municipal collection programs

Chapter 3 Future Capacity

- disposal capacity projections
- external influence on available capacity
- determination to solicit for capacity
- provides data on local municipal collection programs

Chapter 4 Description of Recycling

- benchmarks for population, waste generation and reduction
- comparison of local efforts to national trends
- outline of strengths and weaknesses and recommendations for future recovery
- economic and environmental benefits of waste reduction and recycling

Chapter 5 Selection and Justification

- justifications for the strategies to be used to implement a comprehensive waste management system
- modifications to existing programs as well as those newly proposed
- potential business and economic development opportunities
- implementation schedule

Chapter 6 Location of Facilities

- names, locations and types of facilities designated to receive Erie County's waste over the next 10 years

Chapter 7 Implementing Entity

- organizational structure
- basic resources needed by the Department

Chapter 8 Public Function

- county and municipal owned and operated facilities, equipment
- future public facilities

Chapter 9 Implementing Documents

- ordinances
- contracts and agreements
- rules and regulations

Chapter 10 Orderly Extension

- extension and expiration of existing agreements

Chapter 11 Non Interference

- cooperation with existing disposal sites

Chapter 12 Public Participation

- advisory committee meetings
- public comments

CHAPTER ONE

Local Municipal Waste Quantities and Composition

In general, the development of a municipal solid waste management plan comes with the expectation that certain industry standards and assumptions will be utilized to determine the programs and services appropriate to handle the waste generated, recycled, and disposed locally. While those basic tools and data sources are important, conducting research on economic conditions, history, heritage, the people, and their environment is vital in understanding local practices. Local data can point to unique circumstances or materials, which may not fit into the typical trends and solutions and therefore, may require special attention. Knowledge of lifestyles, education, housing, employment, and population also offers insight into the ease or difficulty in implementing potential changes.

This first chapter provides a brief characteristic outline of Erie County and its municipalities. It discusses general demographic features that can influence municipal waste management. The types of municipal waste are described along with the sources and activities where those wastes are generated in Erie County.

AN OVERVIEW OF ERIE COUNTY

Physically, with a land area of 1,558 square miles, Erie County is the largest county in Pennsylvania. It is situated along the most northwestern corner of the state along the shores of Lake Erie, one of the Great

Figure 1-1 Location of Erie County

Lakes. Erie County shares the border along the lake with Canada, the only Pennsylvania County to border another country. Chautauque County in New York lies to the northeast of Erie County, and Ashtabula County in Ohio is to the west. Within Pennsylvania, Crawford County and Warren County border Erie on the south and east, respectively.

Figure 1-1 shows the County in relationship to the surrounding states and counties.

CHAPTER TWO

Municipal Waste Management Infrastructure

To manage the municipal waste that is generated in Erie County requires an intricate network of transporters, processors, and disposal facilities. Evaluating whether or not the available services are adequate to meet the needs of the County is an important step in the planning process. Although the Municipal Waste Planning, Recycling and Waste Reduction Act establishes the assurance of disposal capacity as the priority for counties, understanding these other factors is equally beneficial, if the goal is to establish a comprehensive waste management plan. Knowing to what extent these services are used by Erie County residents and businesses is another critical factor.

Chapter 2 provides an inventory of the facilities, which received waste generated in Erie County. It also examines the disposal trends since the last planning initiative. Additionally, it considers how these trends could impact the availability of disposal capacity in the future. This section explores how waste is managed in local municipalities and discusses the strengths and weaknesses of the current system. It also examines some of the undesirable disposal practices that still occur throughout Erie County, their cause, and methods to discourage this behavior.

COLLECTION AND TRANSPORTATION SERVICES

A number of municipal waste collection and transportation service providers operate in Erie County. Services are offered by the private and public sectors. Some of them are located within the County's boundaries, while others service the County from remote locations. Service offerings may include collection from residential curbside, commercial containers, large detachable open top containers for construction, demolition, and

industrial waste, and enclosed containers for food and other types of organic wastes. Special remediation projects and large demolition jobs generate enough waste to warrant the services of dump trucks or trailers.

The availability of each type of service is dependent on the transporter. Certain transporters specialize and therefore their selection of vehicles and containers are tailored to manage specific types of wastes. Larger companies have the resources to address most, if not all, collection and transportation needs.

TRANSPORTER AUTHORIZATION

In Pennsylvania, certain transporters of municipal and residual waste must obtain Waste Transporter Authorization. Since 2002, all waste transportation vehicles (trucks and truck tractors with a registered gross vehicle weight greater than 17,000 lbs., and trailers with a registered gross vehicle weight greater than 10,000 lbs.) transporting municipal or residual waste to processing or disposal facilities in Pennsylvania have been regulated by the Waste Transportation Safety Act (Act 90). Haulers that transport waste to out of state facilities are not required to obtain authorization. Self-haulers and haulers of small quantities of waste are exempt from the license also.

Table 2-1 lists the transporters of municipal waste known to be operating within Erie County. It is important to note that not only those who collect municipal waste from residences and businesses are required to be licensed, but also those who haul construction demolition debris and significant quantities of materials from their own operations. Therefore, commercial businesses, builders, developers, roofers and remodeling contractors fall into this category. Because they control a significant and important portion of the municipal waste stream, their practices must be considered in policies that result from the planning process.

TRANSPORTING SPECIAL HANDLING MUNICIPAL SOLID WASTE

A certain portion of municipal solid waste, which is generated within Erie County, requires specialized methods of transporting, processing, and disposal. These wastes are not typically hauled directly to landfills. In Pennsylvania, transporters of special handling wastes are licensed and regulated separately from the Act 90 Waste Transporter Authorization Program. Often customized equipment is used to deliver these wastes to treatment or pretreatment facilities specifically designed for their management. In some instances, wastes are actually conveyed directly to the facility via pipelines and pumping stations. Special handling wastes include: biosolids, septage, sludges resulting from treated wastewater and regulated medical wastes.

MANAGEMENT OF BIOSOLIDS AND RESIDENTIAL SEPTAGE

An extensive network of wastewater treatment plants has been developed throughout Erie County. Wastewater from residences and businesses flows through pipelines to the treatment facilities. As would be expected, this network services the more densely populated areas of Erie County. The development of such an infrastructure is often cost prohibitive in rural areas where the housing density is low. Rather than flow wastewater to a remote treatment facility, it is held in a septic tank and periodically emptied by a septage transporter. Residential septage can be managed in one of two approved methods. The first option is to transport the septage to a municipal or private wastewater treatment facility or a septage treatment facility where it can be properly treated prior to final disposal. Because facilities within a reasonable driving distance may not be permitted to accept septage, this is not always a viable option. An alternative then is to obtain approval for beneficial use of the septage by land application at an agricultural or reclamation site.

SEPTAGE TRANSPORTERS

In Pennsylvania, transporters of residential septage must register with the PADEP. Information for each load of septage that is collected and transported is recorded by the transporter. Required information includes, at a minimum: the county and state where the waste was collected; the name and address of the hauler transporting the septage; the name and location of the transfer, processing, or disposal facility where the septage has been or will be delivered; the weight or volume of the septage; and a description of any handling problems or emergency disposal activities. Although a report is not filed, the information must be made available upon request to PADEP inspectors.

Septage cleanouts are done on a periodic as needed basis. Therefore, homeowners contact the transporter of choice. It is common for transporters to cross county lines to provide such services. The PADEP can only identify haulers based on their origin, not on their service area. Therefore, many counties also require septage transporters to

register their intent to operate within the county. Erie County does not currently register septage haulers.

Table 2-2 lists those septage haulers known to offer services within Erie County.

Table 2-2 Erie County Transporters of Residential Septage

Septage Transporters in Erie County	
Company	Address

Moore Sanitation Septic Cleaning & Toilet Rental	4064 Nash Rd, East Springfield, Pa 16411
Omni Plumbing & Septic Service	8320 Peach St, Erie, Pa 16509

REGULATED MEDICAL WASTE MANAGEMENT

Transporters of regulated medical waste (formerly known as infectious chemotherapeutic waste) also fall within the ranks of those requiring a license in Pennsylvania. A stipulation of the license is that each transporter must report the origin and ultimate destination of the waste to PADEP. Table 2-3 shows the infectious regulated medical waste transporters that are located in Erie County as well as those that are located elsewhere, but provide services in Erie. Most companies operate within a wide service area, if not the entire state, therefore it is possible that additional companies also service the County.

RESIDENTIAL COLLECTION PATTERNS AND TRENDS

Waste collection services are available throughout Erie County, although service offerings may vary slightly from town to town. To determine which methods and rate structures were most commonly found in Erie County municipalities, the Erie County Department of Planning conducted a countywide survey. The municipalities were asked to respond via an online survey. As a follow-up some municipalities were contacted directly by phone. Consequently, the response rate was relatively high. The Department was unable to verify current collection practices in less than five percent of the municipalities.

ACCESS TO AND AVAILABILITY OF SERVICE

When compared to the residential trends in many Western Pennsylvania counties, Erie County's survey results were encouraging. A plurality of communities confirmed that there is some type of formal collection program offered within their jurisdiction. Several municipalities secure collection services for their residents through a competitive bidding process. In those communities, a contractual agreement provides one hauler with the exclusive rights to collect residential waste for a fixed period of time. A few

others participate in the marketplace by providing collection services utilizing public employees and equipment. In contrast to these contracted municipalities and those publicly serviced, subscribing to waste collection is voluntary in the remainder of Erie County. In subscription service areas, residents, commercial and institutional establishments are free to contract directly with the hauler of their choice.

An issue often ignored, where participation is voluntary, is that residents and businesses are also free to have no service at all. A negligible amount of residents self-haul their own waste to local facilities. In a few instances where individuals do not subscribe to collection service, the decision may be justifiable by their practice of environmentally friendly waste management methods such as diligent waste minimization, recycling and composting. However, historically, evidence shows that an unwillingness to pay plays a greater role in the avoidance of waste collection than other self-imposed practices.

Based on the survey results, approximately 95% of the municipalities claim that local residents have access to curbside waste collection. Roughly 84% of those communities either arrange for collection service through a competitive bidding process or via public workers and equipment. The other 11%, of the municipalities that responded, indicated that services were available locally on a voluntary subscription basis. It was assumed that the 5% non-responders had no service, however, it is possible that residents there subscribe on a voluntary basis.

RATE STRUCTURES

Because there is one predominant hauler that operates in the County, it is not surprising that the rate structures and services offered are strikingly similar. For the most part, Erie County municipalities continue to offer the collection of unlimited volumes of waste for one flat fee. In a few instances, residents also have the option to opt for the

The service price per home is higher in communities where subscribing to waste collection is voluntary, than in municipalities that contract with an exclusive service provider.

limited volume that can be contained in a 96 gallon wheeled cart. Another choice that may be offered as a stand-alone, or in conjunction with the other options, is a pay by the bag

program. Only one municipality has a volume based system that restricts residents to a certain number of containers or bags for one flat fee. Other services such as recycling, leaf waste, and bulky waste collection may be incorporated into the service agreement. Recycling and leaf waste collection is discussed in detail in Chapter 4.

While the survey did ask for pricing information, it was excluded from the Plan, because comparing collection pricing from one municipality to another can be misleading and inaccurate conclusions can be drawn. There are too many variables that impact the cost from one municipality to another, even when the contract specifications are the same. One finding consistent with other counties was that subscription pricing trends higher than the contract rates in the municipalities with single hauler service agreements. In many cases, more services are included at a lesser price. This is normally because in a voluntary participation system the fixed costs for a collection route must be shared among a fewer number of homes than in a mandatory collection contract. Therefore the per unit rate is more than where services are obtained through an all-inclusive contract.

PROCESSING AND DISPOSAL SERVICES

To meet its obligation to provide sufficient disposal capacity for the municipal waste generated over the 10-year period of the Plan, in 2005, the County entered into contractual agreements with several landfills. The contracts served as the landfill's guarantee to reserve a specific amount of its daily and annual capacity for the disposal of Erie County municipal waste.

Following is a list of the landfills which either executed the capacity agreements with Erie County, or were approved to enter into an agreement upon the issuance of an operating permit.

ERIE COUNTY DESIGNATED MUNICIPAL WASTE DISPOSAL SITES 2005 THROUGH 2015

Carbon Limestone Landfill

(Mahoning County, OH)
8100 S. Stateline Road
Lowellville, OH 44436

Chautauqua County Landfill

(Chautauqua County, NY)
3889 Towerville Road
Jamestown, NY 14701

County Landfill

(Clarion County, PA)
344 Walley Run Drive
Leeper, PA 16233
Closed in 2008

Greentree Landfill

(Elk County, PA)
635 Toby Road
Kersey, PA 18846

Lakeview Landfill

(Erie County, PA)
851 Robison Road East
Erie, PA 16509

Seneca Landfill

(Butler County, PA)
P.O. Box 1080
Mars, PA 16046

Tri-County Landfill

(Mercer County, PA)
159 TCI Park Drive
Grove City, PA 16127
Permit not issued

Table 2-5 shows landfills that reported Erie County as the source of the disposed tons of waste listed per year. There is one landfill listed that is not a designated disposal facility. There are also designated disposal facilities that reported no waste from the County and are not shown in the table.

Figure 2-1 illustrates the steady decline in the tons of Erie County all categories of municipal waste disposed since 2005, a difference in nearly 34,000 tons.

Table 2-5 Reported Tons of Erie County Municipal Waste and Disposal Destinations

Year	Total Tons Per Year	SANITARY	LAKE VIEW	SENECA	CARBON LIMESTONE	CHAUTAUQUA	COUNTY ENVIRONMENTAL
2005	254,237.82	8.2	221,925.1	1,206.7	23,443.22	7,654.6	0

Figure 2-1 Reported Tons of Erie County compared to Population 2005-2013

The USEPA generally defines municipal waste as the day-to-day waste, which we generate in our homes and in commercial and institutional establishments. Pennsylvania differs somewhat from the USEPA definition by including construction and demolition waste, medical waste, ash and sewage sludge under that umbrella. Since Pennsylvania landfills and resource recovery facilities report these municipal waste categories separately, it is easy to see changes and fluctuations in any one

The bulk of the reduction in Erie County appears in the basic form of municipal waste as defined by the USEPA. Construction and demolition waste, medical waste, ash and sewage sludge do show a loss, if one only compares 2005 to 2013. However, these waste streams traditionally do vary from year to year, based on seasonal and operational influences, so in that respect, the average annual deviations are not significant.

Pennsylvania landfills reported 41,220 tons less in 2015 than in 2005. Assuming that the out-of-state landfills reported only USEPA municipal waste, then of the 41,220 loss, approximately 12,878 tons can be attributed to out of state competition for disposal. That leaves a net loss of 28,351 tons per year.

The change in tons disposed is not parallel to the County's population fluctuations. Neither does it mirror the pattern of materials recovered for recycling, nor composting, which is discussed in detail in Chapter 4. The drop however, does mirror the trend seen nationally, and elsewhere in Pennsylvania, for as much as a 27% decrease in tons disposed between 2005 and 2013 and a decrease in the amount of waste disposed per person per day.

Table 2-6 Part of the decrease is due to economic factors, but a significant portion can be attributed to lighter weight materials utilized in containers and other goods and a decrease in packaging for consumer products.

Table 2-6 Trends in Erie County USEPA Municipal Waste Disposal Rates

Year	Reported Tons of USEPA Defined Municipal Waste Disposed Per Year			Population	Pounds Disposed Per Person Per Day
	Pennsylvania	Out-of-State	Total

DESCRIPTIONS OF DISPOSAL FACILITIES 2005-2014

CARBON LIMESTONE LANDFILL

Republic Services/Allied Waste's Carbon Limestone Landfill was one of the two out of state disposal facilities designated to accept municipal waste from Erie County. Although the landfill regularly reported between 15,000 and 23,000 tons per year of municipal waste from Erie County from 2005 to 2008, since 2009, Carbon Limestone has reported, for all of those years combined, only 900 total tons. The facility, is located in Mahoning County near Poland, Ohio. Carbon Limestone is a significant operation that accepts waste from surrounding counties in Ohio, West Virginia, and Pennsylvania. It also receives waste from a variety of other states. Although it is not reflected in the reports, it is suspected that more Erie County waste is disposed in Carbon Limestone than is currently reported. This is due to a difference in reporting requirements in Ohio. While the disposal facilities may record the state of origin, there is no requirement for them to track the county or the municipality.

CHAUTAUQUA LANDFILL

Just across the New York state line, near Jamestown is the Chautauqua County Landfill. It is the second out of state facility to enter into an agreement to reserve disposal capacity for Erie County. The documented reports of the amount of Erie County waste, which was disposed at Chautauqua since the agreement was signed in 2004, averages approximately 33,000 tons per year. However, beginning in 2012, those reported tonnages decreased to an average of 5,000 per year.

COUNTY ENVIRONMENTAL LANDFILL

The County Environmental Landfill located in Leeper, Clarion County, at one time had a steady flow of vehicles entering its gates, which delivered waste from sources outside of Pennsylvania. Sometime in 2008, the landfill reached its full capacity. Therefore it stopped receiving waste and began the closure process. Prior to its closure, in 2006 and 2007 the landfill reported small quantities of Erie County municipal waste disposed. However, traditionally, County Landfill was not a regularly selected disposal destination by Erie County transporters.

GREENTREE LANDFILL

Advanced Disposal Services currently owns and operates Greentree Landfill. During the timeframe of the 2004 Plan, the facility was owned by Veolia Environmental Services. The site is located in Fox Township, Elk County. Greentree is one of the largest disposal facilities in the region, and at one time accepted nearly 5,000 tons of waste per day. Although traditionally, the landfill received most of its waste from out-of state sources, currently waste from the Marcellus Shale Gas drilling activities represent a good

portion of its in-bound loads. Advanced Disposal (Veolia Environmental) has never had a division in close proximity to Erie County. Nor does it have a transfer station within the County. Therefore, this facility has never been an attractive option for haulers that must transport waste in small collection vehicles. Consequently, the landfill was a designated facility for disposal capacity in the 2004 Plan, but never received municipal waste for disposal from Erie County.

LAKEVIEW LANDFILL

By far, the dominant disposal destination for all types of Erie County waste was Lakeview Landfill located in Summit Township, Erie County. This facility is owned and operated by Waste Management. Of the tons reported by all sources that originated in Erie County, in any given year, all but approximately 200 to 400 tons were disposed at Lakeview. The location of the facility, coupled with the fact that Waste Management is also the owner and operator of a hauling division and a transfer station within the County, contributes to the amount of waste from Erie County that flows into the facility. Its proximity to the dense clusters of population make Lakeview a convenient disposal destination for other transporters that operate in Erie County, as well.

SENECA LANDFILL

Located in Butler County in the Townships of Jackson and Lancaster, Seneca Landfill is owned and operated by Vogel Holding. Since 2005, Seneca has reported approximately 100 to 200 tons of Erie County waste disposed annually, depending on the year. Seneca receives waste from Erie County through Tri-County Industries, a hauling and transfer station operation located in Mercer County. It is possible that Seneca actually receives more waste from Erie County than is reported. At the receiving landfill, the source of waste that is managed through transfer stations can easily be misidentified as originating in the county in which the transfer station is located, rather than from where it was collected. In addition to Erie, Seneca serves fifteen counties. Allegheny, Butler, and Mercer counties have the greatest quantities of waste reported as disposed at the site.

LOGISTICAL CONCERNS

The impact that collection and transportation have on the cost of managing municipal waste is often overshadowed by disposal in discussions. However, labor, fuel, and equipment represent a significant portion of the cost of waste management. When time and distance can be reduced, transportation costs can be controlled.

To achieve this, municipal waste, which is collected in smaller vehicles designed to maneuver residential streets and commercial roadways, is sometimes delivered to an interim processing facility. There, it is consolidated, compacted, and loaded into large trailers, and in some instances rail cars, to be transferred to the ultimate disposal

destination. Both have the ability to hold larger volumes and weights of materials per trip than the collection vehicles. This reduces the number of trips and, thus, costs.

Although transfer stations are associated with hauls of at least 50 to 100 miles or more, sometimes they can serve a local purpose. Urban areas often use transfer stations to reduce the number of collection vehicles needed to service a town. Because the collection vehicles can unload quicker at a local transfer station than if they delivered the waste the whole way to a landfill when fully loaded, the time saved enables each truck to service more homes per day. Transfer stations that operate in Erie County, or operate in conjunction with transporters that service Erie County, serve both purposes.

Following is a list of those transfer stations.

TRANSFER STATIONS THAT CONSOLIDATE AND TRANSPORT ERIE COUNTY WASTE

Waste Management Transfer Station
1154 West 18th Street
Erie, PA 16502

Tri-County Landfill
159 TCI Park Drive
Grove City, PA 16127

World Resources Recovery Systems

Envirofill Transfer Station
1626 Raspberry Street
Erie, PA 16502

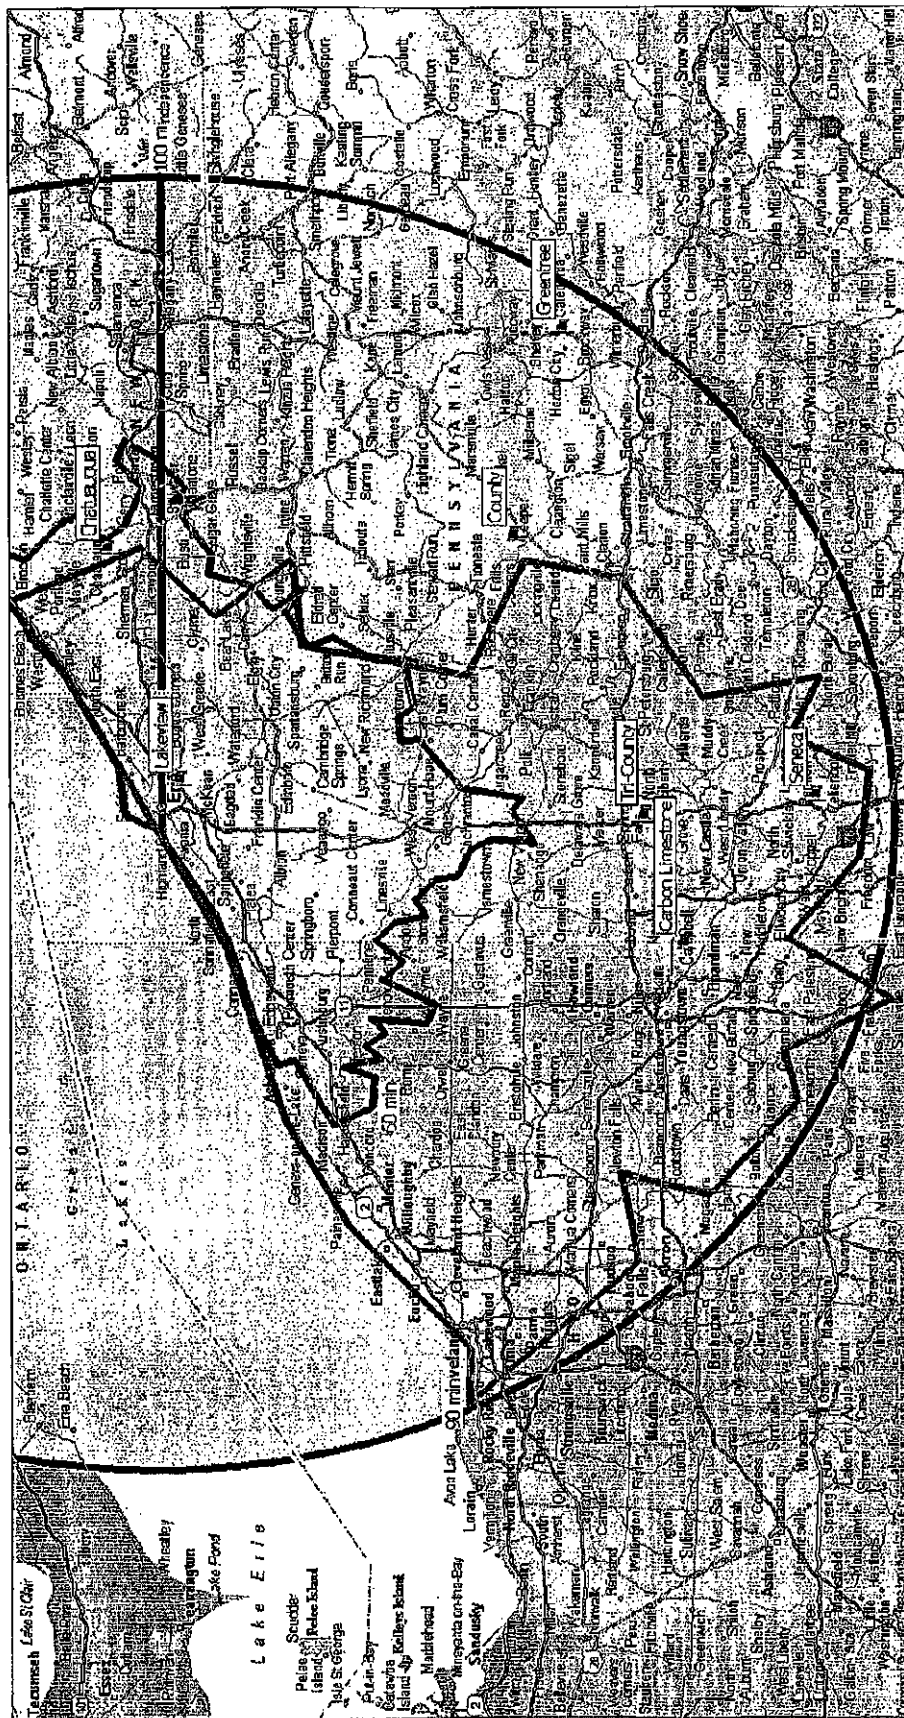

Unloading Waste from Local Collection Routes

Waste Consolidated into Trailers and Transferred to Landfill

Figure 2-2 illustrates the locations of the disposal facilities in relationship to Erie County. The City of Erie was used as a reference point, due to the concentration of population in the area. The map shows a circle which indicates the area included within a 100 mile radius. In addition, both a 60 minute one-way drive time and a 90 minute one-way drive time are shown. Based on the distance to all but LakeView, it is easy to understand why transfer stations play a role in managing parts of Erie County's waste. It also clearly shows why LakeView Landfill is the disposal destination for the majority of the County's waste.

Figure 2-2 Map of Erie County Designated Disposal Sites within 100 Mile Radius

Ordinance Number , 2015

Amending the Erie County Municipal Waste Flow Control and Transporter Licensing Ordinance

WHEREAS, the County of Erie (the "County"), in accordance with the County's 1995 Municipal Solid Waste Management Plan, enacted Ordinance No 96, 1995 on January 1, 1997, which amended Ordinance No. 57, 1992 enacted on May 6, 1992 known as the "Erie County Municipal Waste Flow Control and Transporter Licensing Ordinance"; and

WHEREAS, the County has now adopted a revised 2015 Erie County Municipal Solid Waste Management Plan ("2015 Plan") in accordance with the requirements of Pennsylvania Municipal Waste Planning, Recycling and Waste Reduction Act of 1998 ("Act 101"); and

WHEREAS, certain revisions to the above-referenced Ordinance No. 96, 1995 are necessary and appropriate to conform to the County's revised 2015 Plan; and

WHEREAS, Act 101 gave the County the primary responsibility for planning for municipal waste management within its boundaries; and

WHEREAS, it is the position of the Pennsylvania Department of Environmental Protection ("PADEP") that counties may implement a waste flow control mechanism ensuring that the municipal waste generated within the county is disposed at the disposal sites designated in the county plan; and

WHEREAS, the County has the power and duty to adopt any such ordinances deemed necessary to implement its Municipal Waste Management Plan and its revisions by the authority vested to the County pursuant Act 101; and

NOW, THEREFORE, BE IT ENACTED, the County Council of the County of Erie hereby enacts this Municipal Waste Flow Control and Reporting Ordinance as follows:

Section 1 - Short title

This Ordinance shall be known and referred to as the "*Erie County Municipal Waste Flow Control and Reporting Ordinance.*"

Section 2 - Definitions

The following words and phrases as used in this Ordinance shall have the following meanings:

Act 97 - The Pennsylvania Solid Waste Management Act of 1980 (P.L. 380, No. 97, July 7, 1980) as now or hereafter amended.

Act 101 - The Pennsylvania Municipal Waste Planning, Recycling and Waste Reduction Act (SB528, Act 1988-101, July 1988) as now or hereafter amended.

C&D Waste or Construction/Demolition Waste - Solid waste resulting from the construction or demolition of buildings and other structures, including, but not limited to, wood, plaster, metals, asphaltic substances, bricks, block, and unsegregated concrete. The term also includes dredging waste. The term does not include the following if they are separate from other waste and are used as clean fill: (i) uncontaminated soil, rock, stone, gravel, unused brick and block

and concrete; (ii) waste from land clearing, grubbing and excavation, including trees, brush, stumps, and vegetative material.

Captive C&D Waste Facility - Any waste C&D disposal facility or construction/demolition waste landfill (as defined in Act 97, Act 101 and/or the DEP regulations thereunder) utilized solely by the owner/operator/permittee thereof for its own private captive use for its own C&D waste only, and which is not used by, open to and/or available to other waste haulers or entities or the public generally for the disposal of C&D waste.

Commercial Establishment - Any establishment engaged in non-manufacturing or non-processing business, including, but not limited to, stores, markets, office buildings, restaurants, shopping centers and theaters.

County or Erie County - The County of Erie, Pennsylvania or any agency, department or authority designated as the County's representative for the purposes of this Ordinance.

DEP - The Pennsylvania Department of Environmental Protection.

Designated Facility - Any solid waste storage, collection, transfer, processing, or disposal facility or site listed in the Erie County Municipal Solid Waste Management Plan.

Hazardous Waste - Any solid waste or combination of solid wastes, as defined in Act 97, which because of its quantity, concentration or physical, chemical or infectious characteristics may: (1) cause or significantly contribute to an increase in mortality or an increase in morbidity in either an individual or the total population; or (2) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed of or otherwise managed.

Industrial Establishment - Any establishment engaged in manufacturing or processing, including, but not limited to, factories, foundries, mills, processing plants, refineries, mines and slaughterhouses.

Institutional Establishment - Any establishment engaged in service, including, but not limited to, hospitals, nursing homes, orphanages, schools and universities.

Leaf Waste - Leaves, garden residues, shrubbery and tree trimmings, and similar material, but not including grass clippings.

Municipality - Any borough, township, or city within the County.

Municipal Waste - Any garbage, refuse, industrial lunchroom or office waste and other material, including solid, liquid, semisolid or contained gaseous material resulting from operation of residential, municipal, commercial or institutional establishments and from community activities, and sludge not meeting the definition of "residual" or "hazardous waste" in Act 97 from a municipal, commercial or institutional water supply treatment plant, wastewater treatment plant or air pollution control facility. The term does not include source separated recyclable materials or material approved by DEP for beneficial use.

Municipal Waste Landfill - Any facility that is designated, operated or maintained for the disposal of municipal waste, whether or not such facility possesses a permit from the DEP under Act 97.

Person - Any individual, partnership, corporation, association, institution, cooperative enterprise, municipal authority, Federal Government or agency, State institution and agency, or any other legal entity which is recognized by law as the subject or rights and duties. In any provisions of this Ordinance which prescribe a fine, imprisonment or penalty, or any combination of the foregoing, the term **person** shall include the officers and directors of any corporation or other legal entity having officers and directors.

Plan or MSW Plan - The Erie County Municipal Solid Waste Management Plan approved pursuant to the Act.

Processing - Any method or technology used for the purpose of reducing the volume or bulk of municipal or residual waste or any technology used to convert part or all of such waste materials for off-site reuse. Processing facilities include, but are not limited to: transfer facilities, composting facilities, and resource recovery facilities. This term does not include a collection or processing center that is solely utilized for source separated recyclable materials.

Recycling - The collection, separation, recovery, and sale or reuse of metals, glass, paper, leaf waste, plastics, and/or other materials which would otherwise be disposed or processed as municipal waste or the mechanized separation and treatment of municipal waste (other than through combustion) and creation and recovery or reusable materials other than a fuel for the creation of energy.

Recycling Program - The Erie County Recycling Program run by the Erie County Sustainability Coordinator.

Regulated Waste - Municipal Waste generated within the County and regulated by the County pursuant to this Ordinance and the County Rules and Regulations.

Residual Waste - Any garbage, refuse, other discarded materials or other waste, including solid, liquid, semi-solid or contained gaseous material resulting from industrial, mining and agricultural operations; and sludge from an industrial, mining or agricultural water supply treatment facility, wastewater treatment facility or air pollution control facility, if it is not hazardous.

Scavenge/Scavenging - The unauthorized and uncontrolled removal of material or recyclables placed for collection or from a solid waste processing or disposal facility.

Solid Waste - Any waste, including, but not limited to, municipal, residual or hazardous wastes, including solid, liquid, semisolid or contained gaseous material.

Source Separated Recyclable Materials - Materials generated or collected within the County that (i) are separated from municipal waste at the point of origin by the generator in accordance with the Plan and (ii) are recycled. The term does not include material separated from source separated recyclable materials.

Transportation - The off-site removal of any municipal waste and/or source-separated recyclable material at any time after generation.

Transporter - Any person engage in the transportation of municipal waste and/or source-separated recyclable materials generated within the boundaries of Erie County. A transporter shall not include:

- a) an individual who transports only municipal waste and/or source-separated recyclable materials generated by his or her own personal single family household activities, provided that such individual is not engaged in the transportation business; or
- b) any farmer carrying out the normal activities of his or her farming operation, including composting and spreading of manure or other farm related agriculture waste; or
- c) any transporter involved exclusively in the transportation of septage, sewage sludges, infectious/chemotherapeutic waste, or other special handling municipal wastes as so determined by DEP; or
- d) any transporter transporting exclusively residual and/or hazardous waste; or
- e) any non-profit organization or municipality transporting exclusively source-separated recyclable materials.

Transfer Station - Any supplemental transportation facility used as an adjunct to waste collection route vehicles.

Section 3 - Flow Control: Recycling

A. Flow Control: Any persons hauling, collecting and/or transporting municipal waste collected or generated within the County shall deliver and/or dispose of such municipal waste either:

- (1) At such a processing and/or disposal facilities as are listed as County Designated Facilities for such municipal waste in the County's Plan; or
- (2) At any fully permitted transfer stations and/or processing facilities for such municipal waste, provided, however, that the ultimate disposal by such transfer stations and/or processing facilities (subsequent to any processing) of such waste must occur at the designated facilities for such waste as set forth in the Plan.

No Person shall transport or deliver, or cause to be transported or delivered, municipal waste to a facility other than a County Designated Facility unless such transport or delivery is expressly provided for in the Plan. The County of Erie hereby designates the following permitted municipal waste landfill facilities to receive all municipal waste generated in the County:

- o Chestnut Valley Landfill, German Township, Fayette County, PA
- o Greentree Landfill, Fox Township, Elk County, PA
- o Hyland Landfill, Angelica, Allegany County, NY
- o Lakeview Landfill, Summit Township, Erie County, PA
- o McKean Landfill, Sergeant Township, McKean County, PA

- Northwest Sanitary Landfill, Clay Township, Butler County, PA
- Seneca Landfill, Jackson Township/Lancaster Township, Butler County, PA

B. Pre - Existing Contracts : Nothing in this Ordinance shall be construed to interfere with, or in any way modify, the provisions of any contract for municipal waste disposal, processing or collection in force in the County as of the effective date of this Ordinance. However, no renewal of such existing contract upon the expiration or termination of the original term thereof and no new contract for municipal waste disposal, processing or collection shall be entered into after the effective date of this Ordinance if such renewal or such new contract fails to conform to the requirements of this Ordinance.

C. Recycling Facilities: Nothing in this Ordinance shall be deemed to limit or prohibit recycling or the operation of any recycling facility. Transporters of recyclables shall be exempted from use of the designated disposal facilities but must provide proof that the recyclables are taken to a material recovery processing facility or marketed for end use as part of quarterly reporting requirements.

Section 4 - Prohibited Activities

A. It shall be unlawful for any person to haul, collect, transport, process, and /or dispose of any municipal waste generated within Erie County in a manner that is not in accordance with the provision so this ordinance, the Plan, Act 97, Act 101, DEP regulations, and all other applicable laws and regulations.

B. It shall be unlawful for any person to transport to or dispose of any municipal waste generated within Erie County to any processing or disposal facility, except the designated facilities set forth in the County Plan or any fully-permitted transfer stations and/or processing facilities for such waste which are permitted by the terms of the Plan, this Ordinance, or any amendments thereto.

C. It shall be unlawful for any person to dispose or permit the disposal, in or on any property within Erie County or elsewhere, of municipal waste generated within Erie County or elsewhere, unless such property is a designated facility under the County Plan or such disposal is otherwise specifically permitted under the Plan or other applicable laws and regulations.

D. It shall be unlawful for any person to scavenge any material from any municipal waste or source separated recyclable materials that are stored or placed for subsequent collection within the County without prior approval from the County, the local municipality and the generated of such waste or materials.

E. Nothing in this ordinance shall be deemed to restrict or prohibit the use of a fully-permitted captive C&D waste disposal facility be the owner/operator/permittee thereof for its own private captive use for its own C&D waste only; provided, however, that such owner/operator/permittee must comply with the transporter licensing and reporting requirements of this Ordinance.

F. It shall be unlawful for any person to salvage or reclaim any solid wastes within the County except at an approved and permitted resource recovery facility under Act 97 and Act 101.

Section 5 - Standards for Collection and Transportation

A. All municipal waste collected within the County shall be conveyed by the collector or Transporter to a transfer station, processing facility, and/or disposal site designated by the County pursuant to the approved MSW Plan.

B. All trucks or other vehicles and equipment used for collection and transportation within the County of municipal waste generated within the County must comply with the requirements of Act 97 and Act 101

C. All Transporters shall be responsible for maintaining a current list of customers serviced and records of the amounts and types of waste collected within the County. Such records and customer lists shall be available for inspection and be provided to the County or its designated representatives upon request.

Section 6 - Reporting Requirements

A. All transporters shall maintain current, up-to-date landfill receipts and/or weigh tickets for three (3) years regarding all waste transported, collected and /or hauled within Erie County. Such records shall be subject to inspection at any time and shall be made available to the Recycling Program or its authorized agents upon request.

B. Quarterly, or when notified to do so by the Recycling Program, a transporter shall submit a report (on forms prepared by the Recycling Program) to the Recycling Program regarding all waste collected and/or transported by it within Erie County. At a minimum, the following information may be included in each such report as request by the Recycling Program.

- 1) The name of each municipality in the County in which the collector provided service, and a reasonable estimate of the total weight of each type of municipal waste collected from each municipality listed separately by commercial and residential sources
- 2) Transporters of recyclables shall provide, by municipality, the volume and weight of each type of recyclable material and also the name, location and permit number of the material recovery processing facility or end market, which accepted the material listed separately by commercial and residential sources.
- 3) The name of each processing or disposal facility used during the reporting period and total weight of each type of municipal waste and recyclables that was delivered to each facility during the reporting period;
- 4) Copies of landfill receipts or weight tickets; and
- 5) Such other information as the County may request

Section 7 - Penalties and Enforcement

A. In the event that any person or transporter is found to be in violation of this Ordinance, the County may issue a written notice of violation to the alleged violator. This notice shall be in writing and sent by certified mail with return receipt requested. The notice shall state the nature of the violation(s) and the necessary corrective actions required in detail. The person notified shall be provided ten (10) days to correct the violation(s) or appeal.

B. If the person or transporter found in violation of this Ordinance fails to take corrective action or appeal during the allotted ten (10) days, a citation will be filed at the appropriate district justice office.

C. Any Person violating any provision of this Ordinance shall, upon conviction thereof in a summary proceeding, be sentenced for each violation to pay:

- First Offense: A fine of \$100 plus costs of prosecution.
- Second Offense: A fine of \$300 plus costs of prosecution.
- Third Offense:
- In default of the payment of such fine and costs, to undergo imprisonment for not more than ten (10) days

Each violation of any provision of this Ordinance and each day that such a violation shall exist, shall constitute a separate violation and offense.

C. In addition to any and all other legal and equitable enforcement powers and remedies otherwise available to it, the County may institute a suit in the Court of Common Pleas of Erie County, Pennsylvania for an injunction, either mandatory or prohibitive, to enforce any of the provisions of this Ordinance. In any proceedings brought by the County (whether legal or equitable in nature) to enforce this Ordinance, the Court may reward the costs of litigation, including without limitation reasonable attorney's fees and expert witness fees, in favor of the County whenever the Court determines such an award is appropriate.

D. The sanctions, penalties, and remedies set forth in this Ordinance are cumulative and concurrent, and the existence of or exercise of any remedy hereunder shall not be deemed to be exclusive or prevent the County from exercising any other right or remedy available to it at law, in equity, and/or hereunder.

Section 8 - Implementation

The Recycling Program shall have the power to implement and enforce the provisions of this Ordinance. Its responsibilities shall include, but not be limited to:

- 1) Development of reporting forms;
- 2) Compilation of waste stream data;
- 3) Monitoring of flow control compliance; and
- 4) Enforcement of all ordinance provisions.

Section 9 - Municipal Responsibility

After the effective date of this Ordinance, when any Erie county municipality contracts with a transporter for collection of municipal waste, the municipality shall specify that:

- a. All municipal waste shall be disposal of at the designated facilities under the County MSW Plan; and

- b. All transporters utilized under such municipal contracts shall follow the provisions of this Ordinance concerning collection, transportation, and disposal of solid waste and recycling.

Section 10 - Severability

In the event that any section, paragraph, sentence, clause or phrase of this Ordinance, or any part thereof, shall be declared illegal, invalid, or unconstitutional for any reason, the remaining provisions of this Ordinance shall not be affected, impaired or invalidated by such action.

Section 11 - Conflict

A. Any ordinances or any part of any ordinances of Erie County which conflict with this Ordinance are hereby repealed insofar as the same is specifically inconsistent with this Ordinance.

B. Any ordinances or any part of any ordinances of any municipality within Erie County which conflict with this Ordinance are hereby superseded pursuant to 304(d) of Act 101, insofar as the same are inconsistent with this Ordinance, but the remaining provisions of such ordinances shall not be superseded, affected, impaired, or invalidated by this Ordinance.

Section 12 - Effective Date

This Ordinance shall be effective on August 1, 2015, and shall supersede and replace in its entirety Erie County Ordinance No. 96, 1995 as of August 1, 2015; furthermore, Erie County Ordinance No. 96, 1995 shall remain in full force and effect until and through July 31, 2015.

Memorandum

To: County Council

From: Brittany Prischak, Erie County Sustainability Coordinator

Date: January 11, 2016

Re: Erie County Municipal Solid Waste Plan

The Erie County Municipal Solid Waste Plan (MSW Plan) is required by the PA DEP to be updated every ten years. Therefore we are asking County Council to adopt the updated plan. The update began in 2013 with the awarding of a PA DEP Solid Waste Planning grant and the subsequent hiring of Nestor Resources, Inc. The conclusion of this update was twofold: 1) Update Erie County's landfill capacity agreements, and 2) Offer recommendations to the county and its municipalities in order to increase recycling efforts and decrease landfill waste.

In addition to the resolution for the adoption of the Erie County MSW Plan update, there is an Ordinance relating to the control of Solid Waste Flow in the county. This is a state regulation that requires the county to dictate which landfills are allowed to accept waste and trash materials generated within its borders. This ordinance is in conjunction with the seven (7) current landfill capacity agreements that Erie County holds. These seven (7) landfills are the only ones allowed to accept waste generated from Erie County for the next ten years (2015-2024) and can be found in Chapter Six of the MWS Plan. This Ordinance is an amendment to Ordinance No 96, 1995, which included a requirement for all waste transporters to be licensed. The licensing of waste transporters by counties was deemed illegal and has thus been removed with the updated Ordinance. This ordinance will still require transporters to submit annual recycling and waste tonnage reports to the county, as per state regulation.

As there is no financial requirement associated with the ordinance, we are asking to skip the first reading. Please note that Section 12 of the Ordinance will require an effective date for this ordinance.

For any questions regarding the Erie County Municipal Solid Waste Plan or the Ordinance, please contact Brittany Prischak, Erie County Sustainability Coordinator, 814-451-7326 or bprischak@eriecountypa.gov.

Although proposals were invited for new or alternative disposal technologies, none was received in this solicitation process. In addition, no proposal included supposition of County partnerships or investments in the construction and operation of facilities. Based on these factors, no further cost/benefit comparison, life cycle analysis, or evaluation was deemed necessary.

PROPOSAL REVIEW AND EVALUATION

Respondents to the Request for Proposals included: Advanced Disposal Services, Casella Waste Management, Waste Management, and Vogel Holding. Chautauqua County Landfill also submitted a petition to be included in the Plan. Combined, proposals for a total of eight landfills offered daily, annual, or contingency capacity assurances to the County. These were examined and reviewed to determine compliance with the submission criteria. The facilities that meet the criteria will be officially designated after the final approval of the Plan.

During the review and evaluation process, minor mistakes were noted. Several requests were made to eliminate deficiencies that occurred in regards to incomplete submissions for the back-up facilities. Answers and clarifications were provided for some items. That missing information is being incorporated as it is received prior to submission of the final Plan. The results of the proposal evaluation are presented in five sections following these narratives. Each section represents a segment of the legal Proposal, technical, operational, and financial selection criteria.

Tables 6-1 through 6-5 show the proposed facilities with their responses and demonstrated information condensed for presentation purposes.

Table 6-1 Contractors, Proposed Facilities, Legal Formalities

Facility	Site Name	Owner	Site Location	Contacts		Capacity Agreement		
				Technical	Operational	All Required Forms and Signatures	Agreed to Contract Terms and Conditions or Exceptions or Comments	Requires Put or Pay or Minimum Tonnage

RECOMMENDATIONS FOR DISPOSAL FACILITY DESIGNATION

The review and evaluation of the proposals determined that all of the facilities meet the established selection criteria. Some of the facilities are operating with permits that will expire before 2021. A few have capacity that could be greatly depleted during the term of the contract, but have room for expansion and design modifications. In these instances, actions to modify or renew existing permits are expected to result in approvals. All qualify to become designated disposal facilities in the Erie County Municipal Solid Waste Management Plan. The facility with a pending permit application otherwise satisfies the requirements and could be considered a designated facility contingent on receipt of a permit approval.

In summary, the Erie County will execute and enter into disposal capacity agreements with the facilities shown here. The table is arranged in alphabetical order by the owner/operator with each corresponding facility listed below.

RE: Rational for Change in Transfer to Pleasant Ridge Manor

The original 2016 General Fund Budget included a transfer to Pleasant Ridge Manor of \$376,265. In May of 2016, Council adopted Ordinance #26 of 2016 which increased the transfer by \$4,390,879 for the intergovernmental transfer increasing the transfer to \$4,767,144. Pleasant Ridge Manor has submitted their 2017 budget proposal which includes a projected transfer for 2016 of \$1,372,200. The ordinance in front of Council requests adjusting the transfer to this number and appropriating the funds back to fund balance.

Please contact me if you have any questions.

Re: Request for Ordinance for Immunization Budget for FY 2016

The Health Department Immunization Bureau 056-018860 requests an ordinance to revise the County Budget to match Pennsylvania Department of Health reimbursement.

On January – June 2016 County Immunization Budget has received a 4.41% reduction in funding from the Pennsylvania Department of Health. The reduction will be distributed per the attached Ordinance exhibit.

Revenue:

- Grant 056-018860-051300 - Decrease - \$ 16,895.

Expense:

- Hospitalization 056-018860-001220 - Decrease - 7,000.
- Drug 056-018860-001221 - Decrease - 2,000.
- Travel 056-018860-002010 - Increase + 1,000.
- Insurance 056-018860-002030 - Decrease - 100.
- Auto Insurance 056-018860-002060 - Decrease - 450.
- Postage 056-018860-002290 - Decrease - 600.
- Advertising 056-018860-002300 - Decrease - 150.
- Stockroom Sup. 056-018860-003020 - Decrease - 335.
- Medical Supply 056-018860-003150 - Decrease - 1,000.
- All Other Supply 056-018860-003330 - Decrease - 6,260.

Please contact me at 451-6701 or by email, mlyon@eriecountypa.gov for additional information.
Thank You.

Re: Funding Reduction Change Order
Agreement # 4100070581 FRCO1

Dear Ms. Lyon:

As a result of reduced funds available to the Department of Health for the services provided for in the above referenced Agreement number, and pursuant to Paragraph II of the original agreement, the Department is providing notification of a reduction in funding.

The attached work statement, Appendix A-1 is incorporated into the agreement and supplements Appendix A.

The attached budget, Appendix C-1 is incorporated into the agreement and replaces Appendix C for the budget period January 1, 2016 through December 31, 2016.

This is the only correspondence that will be issued by the Department regarding this reduction. Please retain for your records.

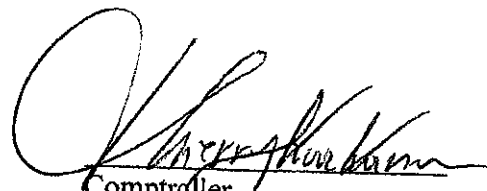

All other terms and conditions of this agreement remain unchanged.

If you have any questions regarding this reduction, you may contact the Project Officer, Amanda Santana at (717) 787-5681.

Sincerely,

Agency Head
Department of Health

RE: Request for Ordinance creating a new bureau within the Department of Health

We are requesting the creation of a new Bureau for a recently awarded donation from the Erie Women's Fund for the Baby and Me Tobacco Free Program. The Baby and Me Program is an evidence-based smoking cessation program for pregnant women. The program has proven that the quit rate for mothers after 12 months is 70%. This is accomplished by incentivizing them to remain smoke free via a monthly diaper voucher program. The smoking rates of pregnant women in Erie County hovers around 20%-25%. This is significantly higher than the State and National rates. This program is designed to be fully funded in 2017 through 2019 by the donations award by the Women's Fund and the PADOH Maternal Child Health Grant.

We are requesting a first and second reading of this ordinance to allow for timely deposit of funds.

Thank you for your support and assistance. If you have any questions, please contact me at ext. 6701.

* Denotes creation of a new line item

To: Kathy Dahlkemper, County Executive
County Council Members

From: Lana Rees/Patrick Ryan

Date: September 1, 2016

Subject: Rationale for Creation of Budget Lines

The attached Exhibit A reflects a line item creation to the 2016 Children and Youth Fund budget.

This line item is needed to be created due to court ordered placements of children into a facility that was not used during the creation of the budget. Budget transfers will be used to transfer funds for these newly created line items.

This is a common occurrence with the Children and Youth Fund budget. Court ordered placements of children often occur to facilities that have never been used, thus requiring a new line item. Budget transfers from existing placement expense lines that are either being underutilized or not used this year will fund this new placement expenses.

There is **0.00** increase or decrease in County funds projected at this time.

If you have any questions, please contact me at your convenience.

RE: Grant Funding Received for Nursing Mother Space in the Courthouse

In June of 2016, the Human Resources Department applied for funding for *Pumped for Work*, otherwise known as the mini-grant applications to furnish and equip private lactation spaces for nursing mothers in the workplace. This grant program was coordinated by the Erie County Public Health Department. In August of 2016, the Human Resources Department was awarded \$4,500 of funding. These funds will be used to purchase the items listed on our grant application (attached). We are requesting that the funds be distributed to the Wellness line item in our budget.

Sabrina Fischer

Mini-Grant Application

- Application Deadline: 12:00 pm on Monday, June 13, or until funds are depleted.
- Guidelines: All funds are to be used; receipts must be submitted to ECDH; funds must be used to furnish an existing room/office and cannot be used for construction.
- A maximum amount of ten percent (10%) of the total award amount is permitted to be used towards promotion and/or a kick-off event for the breastfeeding policy.

All proposals should be submitted electronically as a Microsoft Word attachment by email:

Name: **Sabrina Fischer- County of Erie: Erie County Courthouse**

Address/Phone: **140 West 6th St, Rm 501 Erie PA, 16501 / 814-451-7027**

Tax/Federal ID: **25-6001027**

Number of employees: **500**

Please attach your answers:

1. Description of Project (400 word limit)

Include a detailed description of project and anticipated needs.

The Erie County administration would like to provide a space for nursing mothers within the Courthouse to express breast milk while at work. The identified room will require some modifications to include purchase of furniture, breast pump machine, mini refrigerator and cleaning supplies. Privacy would be assured- there are no windows, and the door can be locked while the room is in use.

2. Implementation (200 word limit)

What/if any stumbling blocks do you anticipate which may hinder the success of the project?

We do not anticipate any stumbling blocks that would hinder the success of the project. A private, comfortable space has been identified and a policy will be finalized and implemented. Education on the policy will be provided to all employees within the courthouse, and appropriate personnel may attend breast-feeding awareness and education sessions.

3. Time frame (200 word limit)

Include anticipated time frame for project completion and full policy implementation.

We anticipate project completion and policy implementation to be completed by **August 1, 2016**.

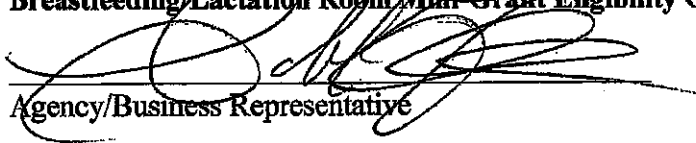

4. Funds Requested—Awards of up to a maximum of \$5,000 (200 word limit)

Indicate total amount requested for this project, breakdown/budget of total cost and basis for the cost(s) estimate.

1 comfortable recliner chair	\$1,200.00
1 Medela Symphony Double- Breast Pump	\$2,230.00
1 Misc. Cleaning supplies (wipes, disinfectant, etc.)	\$400.00
1 Mini Refrigerator	\$250.00
1 Side Table	\$150.00
1 Lamp	\$100.00
1 Boppy Pillow	\$ 40.00
1 Package of Pillow Covers	\$ 20.00
1 Trash Can	\$10.00
1 Sign- Instructions/Guidelines, etc.	\$100.00
TOTAL REQUESTED	\$4,500.00

Funds requested are \$ 4,500.00 in order to pay for and restock these items and other expenses that may come up during the implementation of this great addition to the Courthouse.

Your signature on this application indicates your acknowledgement and acceptance of the Breastfeeding/Lactation Room Mini Grant Eligibility Guidelines as outlined.

COUNTY OF ERIE

PERSONNEL POLICIES & PROCEDURES

SUBJECT: NURSING MOTHERS SUPPORT PROGRAM

DISTRIBUTION: ELECTED OFFICIALS, JUDGES, DEPARTMENT HEADS

FROM: SABRINA FISCHER, DIRECTOR OF HUMAN RESOURCES

EFFECTIVE DATE: August 1, 2016

POLICY NUMBER: 51

In recognition of The Patient and Affordable Care act (P.L.111-148, known as the "Affordable Care Act) of the worksite accommodation law in the U.S. Patient Protection and Affordable Care Act enacted in March 2010, which amends the Fair Labor Standards Act FLSA – the County of Erie provides a supportive employee environment to enable nursing mothers to express breastmilk during work hours.

Time Frame:

An employee is allowed to utilize the policy for a nursing child for one year after the child's birth.

Employer Responsibilities:

Provide Space for Nursing Mothers

A private space in each county building has been made available to employees to express breast milk. Each space, according to law, is "a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public."

Building Locations:

- Prison – Administrative Conference Room
- Courthouse – 5th floor (Northwest Corner)
- Human Services – 4th floor (Southwest Corner)
- Health Department – Basement (South Side)
- Public Safety – Conference Room
- Library – 2nd floor, Rm 245 (Northeast Corner)

Provide Reasonable Accommodations to Break-Time Guidelines

Employees may be permitted to use their break and meal periods to express breast milk. Managers and supervisors should be flexible in allowing employees to adjust the break times as needed. In the event that an employee needs time beyond the break and meal period, managers and supervisors should approve additional paid annual or personal leave or regular leave without pay.

Employee Responsibilities:**Communication with Supervisors/Instructors**

Employees who wish to utilize the policy shall keep their supervisor informed of their needs so that the appropriate accommodations may be made for both the employee and the department. Employees must inform supervisors before they leave and after they return to their workplace.

Maintenance of Space

The employee is responsible for maintaining the general cleanliness of the space for the next user.

Storage

Employee is responsible for properly labeling any items left in the room. Employee is responsible for collecting their items at the end of the workday.

Scheduling

In the case that more than one employee needs to use the room at a certain time, employees will use the reservation log provided in the room. Break times that need to be altered must be negotiated with the employees' supervisors prior to the change.

This policy shall be communicated to all current employees and included in new employee orientation. No employee shall be discriminated against for breastfeeding or expressing milk during the work period, and reasonable efforts will be made to assist employees in meeting their infant-feeding goals while at work. The nursing mothers support program is intended to promote and support breastfeeding and decrease barriers to continued breastfeeding for mothers who are employed by Erie County.

Any act found to be intentional that invades an employee's privacy shall be treated as a disciplinary offense.

In addition, these rooms are multipurpose and may be used for other employees for resting during break and meal periods, although preference should be given to the nursing mother.

Sabrina Fischer, MA
Director of Human Resources
County of Erie
140 W. 6th Street, Suite 501
Erie, PA 16501

Dear Ms. Fischer:

The Erie County Department of Health is pleased to inform you that County of Erie – Human Resources has been awarded \$4,500 in mini-grant funds to furnish and equip a private lactation space for nursing mothers. Congratulations! We are looking forward to the increased access to breastfeeding-friendly environments that this funding will help to establish.

As a reminder, we ask that you please submit copies of ALL receipts within 90 days of this award notification. Receipts can be forwarded to me via email at aharkness@eriecountypa.gov, by postal mail at 606 W. 2nd Street, Erie, PA 16507, or by fax at (814) 451-6716.

Providing breastfeeding and lactation resources and materials, in addition to the physical space, is important to the success of a new mother initiating and continuing to breastfeed her child. As stated in the mini-grant guidelines, breastfeeding/lactation-related information and resources should be made available in the designated lactation spaces. We encourage you to make materials and information available to mothers using your lactation rooms. Additionally, a selection of materials will also be provided to you as part of the mini-grant award. Details regarding these materials will be forthcoming.

We are very interested in following your progress with this mini-grant award and strongly encourage you to share photos and/or a brief "success story" about your established lactation space. Thank you again for your commitment to nursing mothers and congratulations on the award!

Respectfully,

A handwritten signature in cursive script that reads "Nicole Bolash".

RE: Sale of Parcel from Repository for Unsold Properties

Mr. Sparber:

Act No. 1998-69 requires that the Erie County Tax Claim Bureau notify each taxing district of any offer to purchase property from the County Repository for unsold properties, and secure the consent of the appropriate districts prior to any such sale. The districts may not unreasonably withhold their consent.

The Tax Claim Bureau has received an offer to purchase the property commonly known as and identified in the assessment records of Erie County as Index 44-015-037.1-002.58- **9445 SUNSHINE LN LOT 12 TRL**. This offer was made by **Alicia Markham**, who is willing to purchase that parcel for the sum of \$250.00. **Proceeds of this sale will be applied to costs advanced by the Bureau for collection first, in accordance with Section 205 of the Real Estate Tax Sale Law Act 542 of 1947, as amended.**

Please place this offer to purchase on County Council's agenda for the next regularly scheduled meeting and take official action on this proposed sale. After the meeting, complete the enclosed form and return it immediately to the Erie County Tax Claim Bureau at the above address.

If there are questions or concerns regarding the procedure, the property, or the offer, please contact the Erie County Tax Claim Bureau at 451-6202.

Thank you,
